

Models to Compare Two Population Means

Winter 2024

Part 1: Understanding the study design

1.

Write your answer here. . .

2.

Write your answer here. . .

3.

Write your answer here. . .

4.

Delete this line and put your code here

Write your interpretation here. . .

Part 2: Fitting a regression model to compare means

11.

Delete this line and put your code here

12.

Delete this line and put your code here

Write your interpretation here. . .

13.

Delete this line and put your code here

Write your interpretation here. . .

Part 3: Check the model

14.

Delete this line and put your code here

Write your interpretation here. . .

Part 4: Communicate the results

15.

```
# Delete this line and put your code here
```

Write your interpretation here. . .

Part 5: Comparing the results to the two-sample t-test

Task 5.

Write your answer here. . .
